

12 Fiber Optic Adapter

Overview

12-Fiber MTP®/MPO Fiber Optical Adapters from NEATEL are passive interconnect components designed to provide precise alignment and connection between MTP®/MPO connectors in high-density fiber optic systems. These adapters ensure low-loss optical coupling for both multimode and singlemode. Designed to unleash high-speed data center capabilities, MPO Cable Assemblies and Adapters use high-density MTP and MPO-style connectors to deliver streamlined connectivity, high port density, superior loss performance and simplified maintenance for the high-bandwidth networks of tomorrow. Data. Ortronics fiber adapter panel allows for flexibility and expansion with an industry accepted style. With its precision alignment mechanism, it ensures stable optical performance, making it ideal for data centers, telecom operators, and enterprise. Belden offers standalone Fiber Adapter modules for use in a variety of applications. Connector types include LC Duplex, SC Simplex, ST and MPO in multimode and singlemode for up to 12 fibers. Belden also offers KeyConnect and MDVO Fiber Adapter modules.
