

1422 Distribution Box

Overview

Hammond's 1422 series of mild steel two door wallmount enclosures complies with NEMA Type 12 and is designed to house a variety of electrical and electronic equipment and instruments. Melontel optical terminal box is used as a termination point for the feeder cable to connect with drop cable in FTTx communication network system. The fiber splicing, splitting, distribution can be done in this box, and meanwhile it provides solid protection and management for the FTTx network. Shipping fee and delivery date to be negotiated. Chat with supplier now for more details. 1492 Power Block, Power Distribution Block, 3-Pole, Aluminum, 1 Opening Line Side, 12 Openings Load Side, 380 Amps 1492 Power Block, Power Distribution Block. Our flexible distribution boxes enable reliable, decentralized signal transmission and power transmission up to protection class IP67 – wherever passive distribution boxes are required.
