

45-meter communication tower

Overview

The 45M 3-Legged Tubular Steel Cell Tower from XH Tower is a self-supporting, high-rise telecommunication structure engineered to support antennas, microwave dishes, remote radio units (RRUs), and other wireless communication equipment.

Constructed from seamless tubular steel pipes arranged in a. The Jiayao 45 Meter Angle Steel Lattice Self-Supporting Communication Tower is an essential solution for telecommunications companies and internet service providers specializing in 4G and 5G networks. Constructed from high-quality angle steel Q235B, Q345B, and Q420, this robust tower adheres to. 1. Customizable Height: Our telecommunication antenna monopole tower is available in heights ranging from 10m to 100m, allowing you to tailor the product to meet your specific requirements. : Description: Product Name: Monopole Tower Type: Telecommunication Tower Design Software: MS TOWER. ASM TOWER,PLS. February 2025 - X.
