

Bulgaria-Israel fiber optic cable construction

Overview

Israel has set out plans to build a 254-km fiber-optic cable between the Mediterranean and the Red Sea, linking Europe to countries in the Gulf and Asia. The plans were confirmed by the country's Finance Ministry over the weekend, as reported by Reuters. SOFIA, June 10 (Xinhua) — Contracts worth a total of 433. Of the total investment. The company will combine a new power plant, a server farm, and high speed communications at its Eshkol site. Dalia Energy (TASE: DLIA) has received a license from the Ministry of Communications to construct an anchor station for a submarine fiber optic cable on the Eshkol site next to Ashdod Port. An official event organized by the British Embassy in Bulgaria marked the official launch of one of the most significant technological projects in the region – the construction of the Kardesa submarine fiber optic cable. The cable will be built by state-owned.
