

CFP8 Low-loss customs declaration

AI Overview

The CFP8 low-loss customs declaration is a simplified EU customs declaration for low-value consignments, designed to reduce administrative burden and speed up clearance. Overview The CFP8 declaration applies to low-value consignments entering the EU, typically goods with a value not exceeding EUR 150, and in some cases, private-to-private shipments up to EUR 45 that are duty-free and not subject to prohibitions or restrictions. It is part of the EU's effort to streamline customs procedures for e-commerce and small shipments while ensuring VAT compliance. Key Features Simplified Data Requirements: The CFP8 declaration requires only a super-reduced dataset, about one-third of the data elements of a standard customs declaration. This includes essential information such as the description of goods, value, origin, and consignee details. Eligibility: Any person or entity can use this declaration, including consumers, businesses, postal operators, and couriers. Purpose: It facilitates faster processing of high-volume parcels, reduces administrative costs, and ensures VAT collection at import for low-value consignments. IT System Adaptation: Both customs authorities and economic operators must adapt their IT systems to handle these simplified declarations efficiently. Procedure Submission: The declaration must be submitted online at the customs office where the goods are presented on entry into the EU. Required Information: Minimal data elements include: Description of goods (clear, detailed, and in plain language) Value of goods Origin of goods Consignee and sender information VAT Collection: For consignments up to EUR 150, VAT can be collected via the Import One Stop Shop (IOSS) or other special arrangements. Compliance: Goods must not be subject to prohibitions or restrictions, and the declaration must be accurate to avoid delays or penalties. Benefits Faster customs clearance for low-value shipments Reduced administrative burden for both operators and customs authorities...
