

Cable tray price 300100

AI Overview

The price of a 300x100 mm cable tray varies by material, supplier, and length, typically ranging from \$15 to \$50 per meter for standard aluminum or galvanized steel trays.

Price Overview

Aluminum Slotted Cable Tray (300x100 mm): Wholesale prices generally start around \$15–\$25 per meter, depending on supplier, order quantity, and shipping terms (Lingchuang Group, Made-in-China).

Hot-Dip Galvanized Steel Cable Tray (300x100 mm): Prices for industrial-grade ladder-type trays are typically \$20–\$50 per meter, with standard lengths of 2.4–3 meters.

Stainless Steel or FRP Trays: These are more expensive due to corrosion resistance and durability, often exceeding \$50 per meter for high-quality industrial applications.

Supplier Considerations

Minimum Order Quantity: Many suppliers require a minimum order, often 50 meters or more.

Delivery Time: Standard delivery ranges from 3–35 days, depending on stock availability and shipping location.

Payment Terms: Common options include T/T, L/C at sight, Cash, or Western Union, with trade assurance available for international orders.

Customization: Some suppliers offer powder-coated, perforated, or slotted designs for better cable management and ventilation.

Additional Costs

Coupler Plates and Hardware: For 75/100 mm height trays, coupler plates are typically ₹30 per piece in India, with GST and delivery charges extra.

Shipping and Taxes: Prices may vary based on location, import duties, and local taxes.

Recommendation

To obtain an accurate quote, provide the supplier with:

- Material type (aluminum, galvanized steel, stainless steel, FRP)
- Length required (per meter or total meters)
- Quantity
- Delivery location
- Any special requirements (perforation, powder coating, fire rating)

This ensures the supplier can give a precise price including shipping, taxes, and any additional hardware. For bulk orders, negotiating directly with manufacturers like Lingchuang Group or local distributors can reduce costs.
