

Custom-made pigtail channels company

AI Overview

Several companies specialize in custom-made pigtail channels for industrial, medical, and fiber optic applications, offering tailored solutions to meet specific requirements.

Industrial and Electrical Pigtails Companies like SC Fastening Systems, Coronet Parts Mfg. Co., Inc., and Western Enterprises manufacture custom pigtails for power distribution, grounding, bonding, and substation applications. They offer a variety of materials including nylon, copper, stainless steel, thermoplastic, and brass, with lengths ranging from 12 to 72 inches and operating pressures up to 6,000 psig. These manufacturers serve industries such as automotive, aerospace, oil and gas, HVAC, and medical, and often provide services like CAD design, part kitting, and lean manufacturing programs (ThomasNet).

Medical Pigtail Channels For medical applications, companies like Hootai and BovaMed specialize in custom wire-formed pigtail and trachea mandrels, as well as pigtail drainage catheters. These products are used in catheter delivery systems, guidewires, and drainage procedures in urology, thoracic surgery, and interventional radiology. They offer customization in materials such as stainless steel and nitinol, and provide full OEM/ODM services including prototyping, production, and assembly to meet clinical and regulatory requirements (Hootai, BovaMed).

Fiber Optic and Telecommunications Pigtails Fibertronics and other global suppliers, particularly in China's Guangdong and Jiangsu provinces, provide custom fiber optic pigtails for broadband, voice, video, and data applications. They offer single-mode and multimode options, multi-fiber configurations, and rapid prototyping capabilities. These manufacturers often support international B2B logistics and provide tailored solutions for telecom, avionics, and networking industries (Accio, ThomasNet).

Choosing a Supplier When selecting a custom pigtail manufacturer, consider:

- Material and application compatibility (medical, electrical, fiber optic)
- Customization capabilities (length, diameter, connec...
