

Fireproof lighting distribution box

Overview

That's where fire-rated distribution boxes step in. Designed to contain flames and prevent heat spread for critical minutes (or even hours), they buy time for evacuation, protect electrical circuits from damage, and ensure emergency systems like sprinklers and alarms stay. Fire resistant enclosures and junction boxes are used to maintain electrical and electronic circuit integrity to emergency lighting, power and control cables in both "safe" non-hazardous and also hazardous area locations. T&D can provide pre-assembled (Abtech BPGF) or customised (BPG) enclosures. As a leading manufacturer of high-quality cable junction and connection boxes, as well as durable surface-mounted distribution boards, Spelsberg is especially well-qualified for development of fire protection solutions in these product areas. They are tested in accordance with DIN 4102 part 12, and. Fireproof distribution boxes aren't just "better" versions of regular ones—they're engineered from the ground up to stop fires in their tracks. At their core, they're designed to contain heat, flames, and smoke, giving emergency responders time to arrive and occupants time to evacuate. Available as Ex certified (Sira 08 ATEX 3212 or IECEx SIR 13. Finished in grey (RAL. Multiple cable entry points offer flexibility when installing. 2 steel snap-fit mounting clips make securing the lighting distribution box quick and easy, and ensure compliancy with IET wiring regulation 521.
