

How much does a network rack tray cost

AI Overview

Network rack trays typically range from \$15 to \$60 depending on size, weight capacity, and vendor. Price Overview Amazon offers a variety of 19" rack shelves and cantilever trays, with prices generally starting around \$20 for basic vented shelves and going up to \$50–\$60 for heavy-duty or adjustable models. Newegg lists network rack trays with competitive pricing, often in the \$25–\$55 range, depending on brand and features like airflow design and load capacity. Monoprice provides 2U rack shelves that support up to 50 lbs, priced around \$30–\$40, with options for volume pricing if purchased in bulk. eBay features both new and used rack mount trays, with prices starting as low as \$15 for basic trays and going up to \$60 or more for premium or branded models.

Factors Affecting Price

- Size and Height:** 1U trays are usually cheaper than 2U or larger trays.
- Weight Capacity:** Trays supporting heavier equipment cost more.
- Material and Build Quality:** Steel or reinforced trays are more expensive than basic metal or plastic shelves.
- Ventilation and Design:** Vented or cantilever trays that improve airflow are priced higher.
- Vendor and Warranty:** Retailers like Monoprice may offer warranties and volume discounts, affecting overall cost.

Buying Tips

- Compare prices across Amazon, Newegg, Monoprice, and eBay to find the best deal.
- Consider shipping costs and return policies, especially for heavier trays.
- For multiple racks, check volume pricing or business accounts for discounts.

By considering these factors, you can select a network rack tray that fits both your equipment needs and budget.
