

Huawei Optical Module Price Quote in Cameroon

AI Overview

Huawei optical modules, including SFP, QSFP, and GPON types, are available from international distributors with indicative prices ranging from \$50 to \$1,500 per module depending on type and specifications. Price Overview Huawei optical modules vary widely in price depending on type, data rate, and distance:

- SFP/SFP+ Modules:** Typically used for 1G–10G connections, prices range from \$50 to \$200 per module.
- SFP28/25G Modules:** For 25G networks, modules like the Huawei SFP-25G-LR are priced around \$150–\$250.
- QSFP/QSFP28 Modules:** For 40G–100G connections, prices range from \$300 to \$1,500 depending on single-mode or multi-mode and distance.
- GPON Optical Modules:** Used in OLTs for fiber access networks, such as Huawei GPON-OLT-CLASS-C+/C++ modules, prices typically start around \$100–\$300 per module.

Sourcing Options in Cameroon Since local Huawei distributors in Cameroon may not list prices online, the following options are recommended:

- International Distributors:** Companies like Uonel in China and GenuineModules.com offer worldwide shipping and can provide quotes for Cameroon.
- Online Marketplaces:** Platforms like FiberMall and ITPrice list Huawei optical modules with specifications and indicative prices, which can be used to request a formal quote.
- Local Resellers:** Contacting Huawei-certified partners in Cameroon or regional telecom suppliers can provide official pricing, warranty, and support.

Additional Considerations

- Shipping & Import:** International shipping to Cameroon may add customs duties and VAT, which should be factored into the final cost.
- Compatibility:** Ensure the optical module is compatible with your Huawei switches, OLTs, or routers. Many distributors provide pre-shipment testing and coding for compatibility.
- Warranty & Support:** Original Huawei modules typically come with a 1-year warranty and RMA support. For an accurate price quote...
