

Lebanon Fiber Optic Communication Project

Overview

With the Ministry of Telecommunications - Lebanon & OGERO launching tenders to connect 325,000+ homes across 25 COs, we're finally turning plans into progress, backed by the 2024-2025 budgets. This milestone will grant FTTH access to major cities, a real leap toward. BEIRUT: Prime Minister Saad Hariri announced Tuesday the initiation of a wide scale fiber optic project across all Lebanese territories, after state-owned telecom company Ogero awarded tenders to three international companies tasked with linking end users to their central offices. The project. Fiber to the x (FTTX) is a generic term for any broadband network architecture using optical fiber to provide all or part of the local loop used for last mile telecommunications. As fiber optic cables are able to carry much more data than copper cables, especially over long distances, copper. Fiber Works & Communications (FWC) S. has been participating in the Lebanese enterprise market for several years now, attaining an honorable reputation of FIBER OPTIC Expertise when it comes to high speed & wide area networks.
