

Lithuanian Outdoor Optical Cable Price Inquiry

AI Overview

Outdoor optical fiber cable prices in Lithuania vary widely depending on core count, type, and supplier, typically ranging from €0.50 to €3 per meter for standard single-mode cables. Price Overview Outdoor optical fiber cables in Lithuania are influenced by core count, cable type, and durability features. For example, a 6-core FTTH single-mode cable with reinforced layers for outdoor use may cost around €1–€2 per meter, while heavier-duty cables with 12–48 cores can reach €2–€3 per meter depending on customization and bulk orders. Prices can fluctuate based on market demand, raw material costs, and supplier location. Local Suppliers Lithuania has several notable suppliers and manufacturers: Telecentras: Offers a range of telecom services and may provide optical fiber solutions for large-scale projects. The Workshop of Photonics (WOP): Specializes in precision laser micromachining for optical fibers, suitable for custom or high-precision applications. Altechna and LigoWave: Provide optical components and networking solutions that complement fiber deployment. These companies can provide customized solutions, including specific core counts, reinforced jackets for outdoor use, and OEM options. International Sourcing For competitive pricing, many buyers source cables from OEM distributors or international suppliers. Bulk orders can reduce costs significantly, and suppliers often offer custom packaging, logo printing, and design adjustments. Platforms like Alibaba and Made-in-China allow direct inquiries for wholesale pricing and availability, which can be negotiated based on order volume. Recommendations for Procurement Specify cable requirements: Determine core count, single-mode vs. multi-mode, and outdoor durability. Request multiple quotes: Contact both local Lithuanian suppliers and international distributors to compare prices. Consider bulk orders: Lar...
