

Lithuanian fiber optic patch cord manufacturer

AI Overview

Skaidula JSC is a leading Lithuanian manufacturer of fiber optic patch cords and connectors, offering high-quality solutions for telecommunications and data networks. Key Manufacturer: Skaidula JSC Skaidula, established in 1989, is one of the most prominent Lithuanian companies in the fiber optic sector. The company initially focused on metrological equipment and telecommunications cables and later expanded into fiber optic connectors and patch cords. Since 1996, Skaidula has been producing high-quality fiber optic connectors using Swiss DIAMOND equipment, and it is an authorized representative of FUJIKURA, a major global manufacturer of optical connectors and fiber welding hardware. Skaidula provides a wide range of products and services for complex voice, video, and data network solutions, catering to both industrial and enterprise clients. Product Range Skaidula manufactures and supplies: Fiber optic patch cords in various configurations, including simplex, duplex, and MPO/MTP types. Connector types such as SC, LC, FC, and ST, suitable for single-mode and multi-mode fibers. Custom solutions for telecommunications, industrial, military, and data center applications. Market Context While Lithuania imports a significant portion of its fiber optic patch cords from countries like Estonia, China, Poland, Spain, and Germany, Skaidula represents a strong domestic manufacturing option capable of providing high-quality, locally produced products. The company emphasizes innovation, quality, and adherence to international standards, making it a reliable partner for both local and international clients. Additional Notes Other Lithuanian companies, such as Telecentras and specialized photonics workshops, provide complementary services like optical fiber laser drilling and network infrastructure solutions, but Skaidula remains the primary manufacturer of fiber opt...
