

Metal-cased fiber optic terminal box

Overview

It is a cost-efficient metal enclosure for low-density fiber cabling and mini-network terminal connection, which integrates termination, splicing, protection and storage in the compact unit. The 8 port metal indoor fiber termination box is designed for connecting optical fiber cables with pigtails in FTTH/FTTB applications. Fiber Optic Distribution Box makes of stainless steel or cold-rolled steel with electrostatics plastic-spray surface: excellent waterproof and dustproof performance. Available in 1x8, 1x32, and 1x64 core capacities with steel construction. The PPFTB-104A-SCA comes with 4 Simplex SC/APC Coupler Ports installed with 4 Simplex SC/APC Single mode Pigtails ready for splicing. This set includes all necessary components, including the anchoring kit and cable clamp.
