

Mobile Optical Cable Centralized Procurement 2019

AI Overview

In 2019, China Mobile conducted large-scale centralized procurement of mobile optical cables, including butterfly cables and fiber optic splice closures, with quantities reaching millions of core kilometers and multi-billion yuan budgets. Overview of 2019 Procurement China Mobile's 2019 centralized procurement included several categories of optical cable products: Butterfly Optical Cables: The 2019-2020 procurement of butterfly optical cables totaled approximately 3.64 million core kilometers (equivalent to 3.05 million skin-long kilometers), reflecting the company's routine annual centralized procurement for these products. The procurement was structured to allow multiple suppliers to share the contract, ensuring competitive distribution among manufacturers. Single-Ended and Double-Ended Fiber Optic Splice Closures: For the 2018-2019 cycle, China Mobile required 834,000 sets of single-end optical cable joint boxes and 935,000 sets of double-end multiple joint boxes. The auction was divided into two bids, with a total of seven companies winning the contracts, emphasizing quality standards and long-term operational reliability. Procurement Scale and Budget While specific budget figures for all 2019 optical cable procurements are not fully detailed, historical data indicate that China Mobile's centralized procurement projects often involved multi-billion yuan budgets, reflecting the scale of network expansion and 5G infrastructure development. For example, butterfly optical cable procurement in later years (2023-2024) had a budget of 1.1856 billion yuan, suggesting that 2019 budgets were substantial but slightly lower due to smaller quantities. Market Context The 2019 procurement occurred amid a period of rising demand for optical fiber and cable, driven by domestic 5G network rollout and international FTTH expansion. The procu...

ZTT Secures Top Position in China Mobile's 2025-2026 Optical Cable ...

On June 7, China Mobile, China's largest telecom operator and the world's biggest purchaser of optical fiber, officially announced the shortlisted candidates for its centralized procurement of outdoor optical

China Mobile launches procurement of butterfly optical

The scale of China Mobile's 2019-2020 centralized procurement of butterfly optical cables is about 3.05 million skin-long kilometers, which is

Observe the centralized procurement of optical fiber and cable by the ...

With the launch of China Unicom's optical cable centralized procurement project, the centralized procurement of optical fiber and cable of the three major operators has been announced.

ZTE lands largest share of China Mobi...

ZTE's selected devices will help the operator increase the coverage and bandwidth of its provincial networks to satisfy all-optical network development in the era of computing-network

China Mobile launches procurement of butterfly optical cables

The announcement shows that the estimated purchase scale of butterfly optical cable products purchased in this period is about 5 million core kilometers.

China Mobile's general cable bid opening is coming soon ...

In terms of winning bids, according to agency calculations, the average winning unit price of China Mobile's centralized procurement of ordinary optical cables in 2019/2020 is 58.3/40.9 yuan

China Mobile's general cable bid opening is coming soon ...

According to the calculation of China Mobile's centralized procurement scale and maximum price limit, the bidding price for ordinary optical cable per core kilometer in 2020 is 68.9

China Mobile Ordinary Optical Cables Central Procurement

Today, China Mobile announced the results of centralized procurement of ordinary optical cable products from 2021 to 2022. The major optical cable standard is about 9 billion.

China Mobile launches procurement of butterfly optical

Judging from China Mobile's centralized procurement of butterfly optical cables over the years, this centralized procurement is the annual routine

Centralized procurement plan for fiber optic cable with capacity less ...

The Tracking of Contractor Selection Plan helps you to quickly and promptly capture the changes of the Contractor selection plan "Centralized procurement plan for fiber optic cable with capacity less than

China Mobile Started the 2021 Centralized Procurement of Common Optical ...

The project gives "a cardiotonic shot" into the optical fiber & cable industry. Moreover, this year, China Mobile's centralized procurement scales up by 20% and 36% respectively compared with 2020

China Mobile's Centralized Procurement Of Optical Fiber Distribution ...

China Mobile recently issued a bidding announcement for the centralized procurement of optical fiber distribution box products from 2020 to 2021. A total of about 806.52 million sets of optical

ZTE Lands Largest Share of China Mobile's OTN Centralized Procurement ...

ZTE has announced that it has ranked in first place with a share of 50% in China Mobile's centralized procurement 2022-2023 of optical transport networking (OTN) devices.

China Mobile Collects Ordinary Optical Cable Products

China Mobile Collects Ordinary Optical Cable Products And 14 Manufacturers Including YOFC Are Shortlisted China Mobile has just released

ZTE secures the largest share in China Mobile's 2019-2020 BRAS and ...

ZTE's vBRAS solution will help China Mobile to further increase equipment resource utilization rate, accelerate new service deployment and improve operation & maintenance (O& M)

China Mobile Ordinary Optical Cables Central Procurement

The Bid For China Mobile Ordinary Optical Cables Central Procurement (2021-2022) Of 9 Billion Yuan Won By YOFC And Other 14 Companies Today, China Mobile announced the results of centralized

CMI China Mobile International Limited

Learn about CMI's purchasing updates. Based on rich network resources, China Mobile provides a full spectrum of international telecommunication services & high-quality cloud computing solutions to

Centralized Procurement of Mobile Standard Optical Cables

The scale of China Mobile's 2019-2020 centralized procurement of butterfly optical cables is about 3.05 million skin-long kilometers, which is equivalent to 3.64 million core kilometers.

Centralized Procurement of Mobile Standard Optical Cables ...

On June 24, 2025, China Mobile released a centralized procurement announcement on its official website, stating that the funds for the 2025-2027 G. The estimated scale of this centralized

"Rise in Both Quantity and Pricing"

It projects a marked "V-shaped" rebound to the 2019 standard. So to speak, both quantity and price are surging in China Mobile's centralized procurement of ordinary optic cables this year, seen as a strong

China Mobile Announces Results Of Single-Ended, Double-Ended,

On May 15 news, a few days ago, China Mobile announced Centralized Procurement results of 2018-2019 single-ended, double-ended multi-branch fiber optic cable splice closure.

Fortis information: won the bid for the centralized procurement project ...
