

New UK-made electrical distribution boxes available now

AI Overview

Several UK manufacturers now offer custom-built electrical distribution boxes, including portable, wall-mounted, and rubber-encased units tailored for industrial, event, and construction applications. Key UK Suppliers and Products

Ceenorm UK Ltd offers custom-built low voltage distribution equipment up to 630A, including socket distribution units, MDAs, power clusters, and combination units. Their products can be made from plastic, rubber, or metal enclosures and are suitable for both temporary and permanent installations. Options include Variabox (surface-mounted), Evobox (portable), and Modbox (rubber), all customizable to exact requirements with 2D or 3D CAD drawings provided.

INDU-ELECTRIC UK manufactures tailor-made power distribution units (PDUs) for industrial, event, and temporary power systems. Their units include wall-mounted, mobile, and compact solutions, built to withstand extreme conditions. They use THERMOLENE®, a self-extinguishing, flame-retardant material, ensuring high safety and durability.

Olson Direct, based in London, designs and manufactures all PDUs on-site, emphasizing quality and reliability. They provide a range of industrial and professional power distribution units suitable for demanding environments.

Rubber Box specializes in bespoke rubber distribution boxes for venues, events, and entertainment industries. Their units are high-impact resistant, double-insulated, and customizable, with next-day delivery available for urgent requirements.

Protek Electronics Ltd offers a wide range of switchgear and wall-mounted distribution boards, including MC 800A panel boards, MCHD 400A systems, and busbar chambers, all manufactured in the UK to BS EN 61439 standards. Their products are suitable for industrial and commercial installations requiring robust, certified electrical distribution.

Applications and Customization These UK-made distri...
