

Optical module order has arrived

Overview

Samsung Foundry is reportedly stepping up its silicon photonics efforts. According to ZDNet, the company said in its 1Q26 earnings release that its foundry has secured orders from a major optical communication module provider. Today I received an unexpected LPO order. Samsung Electronics said it is currently in talks with several major. KUALA LUMPUR: EG Industries Bhd said its wholly-owned subsidiary SMT Technologies Sdn Bhd has secured an order for US\$241. 18mil) of high-speed 800G optical modules and wireless access-related products from an existing customer. This sell-off is attributed to excessively high market expectations and stretched valuations, with current performance insufficient to justify current stock. An optical module is a typically hot-pluggable optical transceiver used in high-bandwidth data communications applications.
