

Overseas warehouse optical cable terminal box 4 cores

Overview

4 port mini ODF indoor terminal applied in the FTTX network to connect the drop cable and optical devices through fibre port. VTB20 covers the capacity of 1core, 4cores and 8 cores and supports splicing, mechanical connection and FMC, wall mounted installation StandardsOptical fiber outlet box is a user terminal product that implements fiber to home solutions. It can complete the access and port output of fiber optic, provide devices for fixing, stripping, splicing, and protection of fiber optic, and allow for the storage of a small amount of redundant fiber. Support termination, splicing,splitting,distribution and storage for fiber optic cable systems ABS or PC material used ensures the body strong and light. Suitable for 4 adapters SC configuration and splitter Wet-proof, water-proof, dust-proof, anti-aging design for outdoor uses. waterproof IP65. Modern telecommunications depend on 4 core optical terminal box as basic building blocks for fast data transfer over great distances. These devices and systems use light to transport data and provide better dependability and bandwidth than conventional copper connections.
