

Pinglu galvanized cable tray price

AI Overview

Pinglu galvanized cable trays are available through B2B suppliers, with prices varying by type, size, and order quantity; direct supplier contact is recommended for exact quotes. General Pricing Information Galvanized cable trays, including ladder-type and perforated systems, are typically priced based on standard lengths of 2.4 meters and the material used, such as hot-dip galvanized steel. Prices can vary depending on tray width, height, and load capacity. For example, standard coupler plates for cable trays in India range from ₹16 to ₹30 per piece, though this is indicative and may differ for Pinglu products. Supplier Guidance Pinglu cable trays are primarily supplied by German manufacturers and B2B distributors. You can find suppliers through platforms like Europages, which list wholesalers and allow direct contact for quotations. Other international suppliers, such as Alibaba and ekabel24, offer bulk orders and customized options for galvanized cable trays, including compliance with DIN EN 61537 standards. Factors Affecting Price Tray Type: Ladder, perforated, or solid trays have different costs. Material: Hot-dip galvanized steel is more expensive than standard steel but offers better corrosion resistance. Dimensions: Width, height, and length directly influence pricing. Quantity: Bulk orders often reduce per-unit cost. Delivery and Taxes: Shipping, import duties, and GST/VAT may apply depending on your location. Recommendation For an accurate Pinglu galvanized cable tray price: Contact official Pinglu distributors or wholesalers directly. Provide specifications: tray type, dimensions, quantity, and delivery location. Request a formal quotation including shipping and taxes. This approach ensures you receive the most up-to-date and location-specific pricing for your project.
