

Price List of Corrosion-Resistant Cable Trays in the UAE

AI Overview

Corrosion-resistant cable trays in the UAE vary in price depending on material, type, size, and supplier, with stainless steel, hot-dip galvanized, and powder-coated trays being the most common options.

Types of Corrosion-Resistant Cable Trays

- Hot-Dip Galvanized Cable Trays** – Steel trays submerged in molten zinc to prevent rust and corrosion, suitable for harsh environments and heavy-duty applications, commonly supplied by Bonn Metals Construction Industries and BonnGulf in Dubai.
- Stainless Steel Cable Trays** – Fabricated from S.S. sheets, offering high resistance to corrosion and chemical exposure, ideal for industrial and coastal installations.
- Powder-Coated Cable Trays** – Mild steel trays coated with protective powder finish, providing moderate corrosion resistance for indoor or less aggressive environments.
- Glass Reinforced Polyester (GRP/FRP) Trays** – Lightweight, highly corrosion-resistant, and suitable for chemical or outdoor exposure, offered by Unigroup.

Factors Affecting Pricing

- Material:** Stainless steel trays are generally more expensive than galvanized or powder-coated trays due to higher corrosion resistance and durability.
- Tray Type:** Ladder, perforated, wire mesh, solid bottom, and trough trays have different manufacturing costs; ladder trays are commonly used for long spans, while solid bottom trays provide extra protection for sensitive cables.
- Size and Load Capacity:** Wider trays or heavy-duty designs for industrial applications cost more.
- Customization:** Custom lengths, bends, and fittings increase the overall price.
- Supplier and Location:** Prices may vary between suppliers in Dubai, Abu Dhabi, Sharjah, and Ajman.

Leading Suppliers in the UAE

- Bonn Metals Construction Industries LLC** – Offers hot-dip galvanized, stainless steel, and PVC cable trays; contact: +971-54-406-0088.
- Al Ruwais Metal and Steel Factory LLC** – Supplies industrial steel...
