

Price list of electrical distribution boxes in North Africa

AI Overview

Custom-made electrical distribution boxes in North Africa typically range from \$150 to \$1,500 or more, depending on size, material, and specifications.

Factors Affecting Price

- Material:** Boxes can be made from mild steel, stainless steel, polyester, PVC, or fiberglass. Stainless steel and high-grade polyester enclosures are more expensive due to durability and corrosion resistance.
- Size and Configuration:** Larger floor-standing enclosures or multi-panel distribution boards cost more than small wall-mounted boxes. Custom internal layouts, such as compartments for breakers, meters, or batteries, increase the price.
- IP Rating and Protection:** Enclosures with higher IP ratings (IP55–IP65) for dust and water protection are more costly. Weather-resistant and industrial-grade boxes designed for outdoor use add to the price.
- Customization:** Custom features like trapped key interlocks, special cutouts, ventilation, or cooling systems increase costs. Suppliers like Enclosure Solutions and Elen Enclosures offer tailored solutions with competitive pricing, but exact costs depend on specifications.
- Quantity and Delivery:** Bulk orders reduce per-unit cost, while single custom units may include additional design and shipping fees. Delivery to North African countries may add import duties or logistics costs.

Estimated Price Range

- Small wall-mounted boxes: \$150–\$400
- Medium-sized floor-standing enclosures: \$400–\$900
- Large industrial or highly customized distribution boards: \$900–\$1,500+

These estimates are based on South African supplier pricing trends and typical industrial standards, which are often comparable in North African markets, though local taxes, import duties, and supplier markups may affect final costs.

Recommendations

Contact regional distributors or local electrical suppliers for precise quotes. Specify material, size, IP rating, and customization requirements to...
