

Price of Customized Mesh Cable Trays in Uruguay

AI Overview

Custom wire mesh cable trays in Uruguay typically range from \$10 to \$30 per meter, depending on material, size, and finish. Price Overview The cost of a custom mesh cable tray depends on several factors:

- Material:** Steel is the most common and cost-effective, while stainless steel or aluminum increases the price due to corrosion resistance and lightweight properties.
- Customization:** Custom sizes, coatings, or special finishes can raise the price above standard trays.
- Supplier and Quantity:** Bulk orders or local suppliers in Uruguay, such as Jeetmull Jaichandlall, may offer competitive pricing and reduce shipping costs.
- Installation and Labor:** While wire mesh trays are easier to install than conduit, labor costs vary by region and complexity of the installation.

Local Market Context In Uruguay, wire mesh cable trays are considered affordable and durable, often made from recyclable steel or aluminum. They are easy to integrate into existing systems and require minimal maintenance, which can reduce long-term costs. Local suppliers emphasize competitive pricing and sustainability, making them a practical choice for both commercial and industrial projects.

Cost-Saving Tips

- Buy in bulk:** Larger orders reduce per-meter cost.
- Select standard sizes:** Custom dimensions increase manufacturing costs.
- Compare suppliers:** Local Uruguayan suppliers may offer better rates than imported trays.
- Consider coatings carefully:** Powder-coated or HDG trays last longer but cost more upfront.

Overall, for a custom wire mesh cable tray in Uruguay, expect to pay around \$10–\$30 per meter, with higher-end options for stainless steel or specialized coatings. Contacting local suppliers directly can provide precise quotes based on your project specifications.
