

## Price of Electrical Control Box and Distribution Box Set

### AI Overview

Electrical control boxes and distribution box sets typically range from \$50 for small residential units to over \$1,000 for industrial or fully customized sets.

**Residential and Small-Scale Units** For standard residential applications, single-phase or small three-phase distribution boxes generally cost between \$50 and \$300, depending on the number of circuits, amperage, and material quality (plastic or metal enclosures). Pre-equipped breaker panels with basic safety features are at the higher end of this range, while bare boxes without components are cheaper.

**Commercial and Industrial Units** Commercial and industrial distribution boxes or control panels are more expensive due to higher durability, larger capacity, and advanced features. Prices typically range from \$300 to \$1,000 or more, especially for stainless steel enclosures, IP65/IP66 weatherproof ratings, or units designed for harsh environments. These units may include bus bars, PLCs, relays, contactors, and surge protection devices.

**Complete Sets and Customization** Complete sets, including control boxes, distribution panels, and accessories, are available from suppliers like Alibaba, with prices starting around \$200–\$500 per set, depending on customization, branding, and packaging options. Custom features such as specific mounting configurations, digital monitoring, or integration with building management systems can increase the cost significantly.

**Factors Affecting Price**

- Material:** Plastic vs. metal, corrosion-resistant or stainless steel
- Capacity:** Number of circuits, amperage rating
- Protection:** IP rating, surge protection, arc fault detection
- Installation:** Indoor vs. outdoor, wall-mounted or freestanding
- Customization:** Logo, packaging, or integration with automation systems

In summary, small residential boxes start around \$50–\$300, commercial units range \$300–\$1,000, and fully customized or complete sets can exceed \$1,000, with the fi...
