

Price of concealed door for distribution box

AI Overview

Concealed distribution boxes typically range from \$10 to \$30 per unit, depending on size, material, and features. Price Range and Factors The cost of a concealed distribution box varies based on material, size, capacity, and certifications. For example, plastic boxes made from flame-retardant ABS or PC materials are generally more affordable, with FOB prices ranging from \$10 to \$30 per unit for standard 24-way boxes. Metal boxes, such as galvanized steel or aluminum, are more expensive due to higher durability, EMI shielding, and industrial-grade protection. Other factors influencing price include:

- Size and capacity: Larger boxes with more circuit breaker slots cost more.
- Certifications: UL, CE, CCC, or CQC certifications can increase cost but ensure compliance and safety.
- Features: Transparent doors, modular wiring support, surge protection, and smart monitoring capabilities can add to the price.
- Customization: Custom sizes or layouts for specific projects may increase cost.

Market Insights The global concealed distribution box market is growing, driven by residential and commercial construction, urbanization, and safety regulations. Plastic boxes dominate residential applications due to lightweight, corrosion resistance, and ease of installation, while metal boxes are preferred in industrial settings for strength and long service life. Regional demand also affects pricing, with Asia-Pacific being a major supplier and market for cost-effective units.

Supplier Examples

- DELIXI: 24-way plastic concealed box, flame-retardant ABS, FOB price \$10-\$30, 3-year warranty, standard export packaging.
- SMS Engineering: Offers flush-mount electrical distribution boxes with technical support and 48-72 hour delivery, pricing varies by configuration.
- Accio: Provides customizable concealed boxes with IP65 waterproofing, modular wiring, and compliance with UL/CE/CQC sta...
