

Red light pen light power meter all-in-one machine green light

Overview

The Y3Handheld Optical Power Meter & Red Light Pen All-in-One Series is a professional tool designed for continuous optical signal power measurement and fiber continuity testing. Controlled by a high-performance microprocessor, it ensures accurate and efficient fiber-optic diagnostics. Engineered. Optical power meter with integrated red light source, available in 15/30/50 mw models. this all-in-one device combines a high-precision red light source, multi-functional testing pen, and network cable tester, making it ideal for a wide range of network maintenance scenariosWhether it is home. Multiple Wavelength Support:Supports 6 common wavelengths (850/980/1300/1310/1490/1550/1625nm) for versatile fiber testing. Backlight Function:Equipped with a backlight for easy use in low-light conditions. Secure personal details: We protect your privacy and keep your personal details safe and secure.
