

Samoa's Fiber Optic Cable Management

Overview

The project aimed at improving Samoa's international broadband connectivity, which involved the development and operation of a fiber optic submarine cable system (SCS) that would link Samoa to Fiji and provide a cost-effective connectivity to the rest of the world. SAMOA SUBMARINE CABLE COMPANY Our aim is to significantly transform Samoa's digital landscape by leveraging innovative digital technologies. Delivering fast, reliable and affordable internet services to stimulate ICT innovation and development as an enabler of economic growth and social prosperity. The Tui-Samoa submarine cable system is a 1,470km submarine cable connecting Samoa with Fiji, with landing points in Apia and Tuasivi (Samoa) and Suva (Fiji) and branches to Vanua Levu – Savusavu (Fiji) and Wallis & Futuna. Pulaalii Nikolao Pula and Brian Quigley, Google's vice president for Global Network Infrastructure, shake hands on an agreement to build a new fiber optic cable in the U.
