

Standard Dimensions of Customized Distribution Boxes

Overview

Box dimensions are always written in the same order: Length $\times$ Width $\times$ Height (L $\times$ W $\times$ H). This is the universal convention used by packaging suppliers, carriers, and retailers worldwide. For example, a box listed as 12 $\times$ 9 $\times$ 4 in is 12 inches long, 9 inches wide, and 4 inches. This guide covers standard box sizes across every major industry, explains the difference between internal and external dimensions, breaks down carrier-specific size requirements for USPS, UPS, and FedEx, and gives you practical tips to find the right fit for any product. Size charts are provided.
