

Surveillance Connection Box

Overview

A CCTV camera junction box protects your wiring from weather, tampering, and damage while keeping your installation neat and stable for long-term reliability. Choosing the right box ensures safer connections, cleaner layouts, and stronger performance for both home and commercial. **WIDELY USED** With a built in cable encryption feature and integrated roof design, this security camera connection box effectively conceals mishodoc cables, keeping the spaces neatly and perfectly combined with any domestic or commercial environment. However, there are pre-drilled machine screw holes in universal mount patterns that work with most other security camera brands. Please refer to the spec. This universal junction box is suitable for your IP/POE surveillance bullet camera, dome camera, and pan-tilt cameras, bring both your indoor and outdoor cameras a solid and neat way of wire arrangement and protection. Check the product for damage before use. Ensure the seals are properly seated to prevent moisture ingress. ADI offers surveillance camera junction boxes for leading brands like Dahua, Honeywell and Hikvision.
