

Swedish Flame-Retardant and Fireproof Cable Tray Manufacturer

AI Overview

Top recommended suppliers of flame-retardant cable trays in Sweden include KBS, Nordic Wire Tray (NWT), and Ahlsell, offering high-quality, fire-resistant solutions for industrial and commercial applications. KBS Cable Protection KBS CABLE PROTECTION™ specializes in flame-retardant cable coatings and trays using Flamastic KBS COATING™, which provides endothermic fire protection, prevents flame propagation, and maintains circuit integrity during fire events. This system is suitable for strategically important power supplies, including low and high voltage applications, and is recommended by industries such as nuclear and heavy manufacturing. The coating can be applied to existing cable trays and conduits, enhancing fire safety without affecting ampacity or requiring derating. Nordic Wire Tray (NWT) Nordic Wire Tray (NWT) offers the X-Tray system, a premium cable tray solution designed for demanding environments. Their trays are available in multiple surface treatments, including stainless steel, and can be customized for unique project requirements. NWT emphasizes easy installation, long support spacing, and high-quality materials, making their trays suitable for industrial, commercial, and data center applications. The company provides tailored solutions, including cutting, bending, and shaping trays to fit specific installations. Ahlsell Ahlsell supplies a wide range of cable trays, including sendzimir galvanized ladder trays and perforated trays suitable for industrial, educational, and office environments. Their products are designed for flexible installation, supporting both pendant and side-mounted configurations, and are compatible with various mounting accessories. While Ahlsell primarily focuses on standard cable tray systems, they offer reliable options for projects requiring fire-resistant or flame-retardant materials. Additional Considerati...
