

Swiss Intelligent Micro-Module Manufacturer

Overview

Welcome to Microdul—your specialized EMS (Electronics Manufacturing Services) provider for cutting-edge miniaturized electronics. We manufacture sophisticated electronic modules for medical devices, implants (AIMDs), and high-end industrial products. In today's automated world, sensors and actuators developed by HMT are present in every market segment: from industrial to automotive, medical and aeronautic. In addition to printed circuit board assembly. In addition, there exist many more electronics companies that do develop HDL models before configuring field-programmable ICs or outsourcing the remainder of the VLSI design process to a design house. Though most of these companies offer positions for front-end designers too, we must refrain from. EM Microelectronic is a semiconductor manufacturer that specializes in ultra-low power integrated circuits (ICs) for battery-operated applications. They offer tailored chips and modules for various uses, including access control and radio frequency identification, highlighting their expertise in. FP-Type three-level IGBT module Interested?

We are Europe's leading independent supplier of ultra-low-power (ULP) ASIC design services.

Article Content

Top 100 Microchip Companies in Switzerland (2026) | ensun

Microdul AG is a Swiss manufacturer that specializes in advanced microelectronics, including the design and production of miniaturized electronic modules and ultra-low-power mixed-signal ASICs.

Intelligent Power Module (IPM) Devices

ST's power modules help you simplify designs and reduce component count. Save costs with ST's intelligent power modules (IPMs) for flexible and robust designs,

Microdul AG

Welcome to Microdul—your specialized EMS (Electronics Manufacturing Services) provider for cutting-edge miniaturized electronics. We manufacture sophisticated electronic modules for medical devices,

Overview and Positioning

EM Microelectronic-Marin SA, or simply EM Microelectronic, started its activities in the 1970's by designing miniaturized, ultra low power integrated circuits for watches in the town of Marin near

Micro and Nanotechnology in Switzerland | GGBa

Dive into Switzerland's tradition of precision and its prominence in micro and nanotechnology through innovative research and expertise.

Intelligent AI Modular Data Center Micro Module Solutions

Overviews · The Soetekock intelligent module data center integrates key subsystems like cabinets, cooling and power distribution. · Featuring efficient, reliable

Morse Micro

Morse Micro Announces General Availability of the HaLowLink 2 The HaLowLink 2 is a Wi-Fi Certified™, all-in-one Wi-Fi HaLow router, access point, and extender,

MMT Swiss (Manufacture Modules Technologies),

Today, we find out more about MMT Swiss Connected, Manufacture Modules Technologies, a company that creates Swiss-made connected

Your trusted partner in power semiconductors | SwissSEM

We are shaping the technologies for a sustainable world of tomorrow with innovative products and cutting edge power module assembly.

GS Swiss PCB: Manufacturer of Miniaturized and

Swiss manufacturer of highly miniaturized and reliable flex, rigid-flex, and rigid PCBs using both conventional, subtractive and SAP-technology

The microelectronics industry in Switzerland

Though most of these companies offer positions for front-end designers too, we must refrain from listing them here as we want this directory kept focussed on microelectronics. This company directory is to

SwissChips initiative: a boost for the Swiss chip industry

Strengthening Swiss research collaboration in the field of IC design and microelectronics The SwissChips initiative is a joint project of CSEM, EPFL and ETH Zurich, supported by various Swiss

Semiconductors | Industries | CSEM

We are Europe's leading independent supplier of ultra-low-power (ULP) ASIC design services. From high-performance functional circuit blocks and complete

Manufacture Modules Technologies

Manufacture Modules Technologies Sarl (MMT) is a Swiss company established in Geneva in 2015 which originally specialised in the development and commercialization of "Horological Smartwatch

MMT Swiss Connect

Info Manufacture Modules Technologies Sarl is a Swiss company established in Geneva in 2015 and originally specialised in the development and commercialization of Horological Smartwatch modules,

Swiss manufacturer unveils 500W solar module with

Swiss solar module manufacturer Megasol has launched the bifacial module M500-HC-144-b RC GG U30b with a reported power conversion

Swiss manufacturer enters Australia with heterojunction

Swiss solar module manufacturer Meyer Burger will enter the growing Australian PV market by offering a range of high-performance solar panels that it

Top 100 Semiconductor Companies in Switzerland

Micro Crystal AG is a prominent manufacturer of Miniature Quartz Crystals, Oscillators, and Real Time Clocks, which are essential components in various

13 Leading Intelligent Power Module Companies Shaping the Market ...

Discover the top 13 leading intelligent power module (IPM) companies driving innovation, efficiency, and competitive advantage across industrial, automotive, and renewable energy sectors.

Microdul AG

Microdul stellt qualitativ hochwertige Mikromodule für individuelle Lösungen her. Die Miniaturisierung von Elektronikmodulen und die Verarbeitung ungehäuster Chips

Newly Formed GENESIS Consortium to Promote

A global consortium focused on the electronics design and manufacturing supply chain has announced the formation of the GENESIS

Precision Timing, Exact Time

Today, Micro Crystal AG is a leading manufacturer of Miniature Quartz Crystals (30 kHz to 250 MHz), Real-Time Clock (RTC) Modules, Oscillators and OCXOs for the world's leading manufacturers of

5 Top Semiconductor Manufacturing Companies in Switzerland · May

Detailed info and reviews on 5 top Semiconductor Manufacturing companies and startups in Switzerland in 2026. Get the latest updates on their products, jobs, funding, investors, founders
