

The most expensive cable tray in the country

Overview

Legrand's Cablofil CF54 tops the list for 2025 thanks to its refined modular system, high load capacity and factory finishes that reduce lifecycle corrosion costs compared with many rivals. Are you looking for high-quality Cable Trays for improved cable management and organisation?

Look no further than our extensive range, featuring top brands such as our very own RS PRO, Cablofil International, Legrand, and StarTech. That number matters, but it's rarely the one that decides whether a project stays within budget. The real cost shows up later, during installation, during upgrades, and during the first few years of operation. The market was valued at USD 5.65 billion by 2033, at a CAGR of 6. The main cost driver is the material used in manufacturing: Galvanized steel is the most common. The majority of individuals will consider the cost of the components. While it carries a premium up-front cost, its long service life and extensive accessory range deliver lower.
