

The world s largest optical cable manufacturer

AI Overview

Prysmian Group is the world's largest optical cable manufacturer. Prysmian Group, headquartered in Italy, leads the global fiber-optic cable industry with a comprehensive product portfolio and extensive international operations. The company produces a wide range of optical fibers and cables, including submarine, terrestrial, and fire-resistant solutions, supporting telecommunications, data centers, and energy networks worldwide. Prysmian's global presence spans over 50 countries, with more than 100 manufacturing plants, enabling turnkey solutions for large-scale network projects.

Key Highlights

- Global Market Share:** Prysmian holds approximately 15% of the global fiber-optic cable market, making it the largest manufacturer by volume.
- Product Range:** The company offers high-performance optical fibers, submarine cables connecting continents, and specialized cables for 5G, cloud, and AI infrastructure.
- Innovation:** Prysmian invests heavily in R&D, developing bend-optimized fibers, low-attenuation cables, and sustainable materials that reduce environmental impact.
- Strategic Acquisitions:** The acquisition of General Cable expanded Prysmian's capabilities in energy and telecom solutions, reinforcing its market leadership.
- Global Projects:** Prysmian's cables are used in major international projects, including submarine networks with capacities exceeding 200 Tbps, supporting next-generation digital infrastructure.

Comparison with Other Leaders

While Corning Incorporated, based in the U.S., is a pioneer in optical fiber technology and holds a significant market share (~10–11%), Prysmian surpasses it in overall production capacity and global reach. Other major players include LS Cable & System, Fujikura, YOFC, and Hengtong, but none match Prysmian's combination of scale, product diversity, and international footprint. In summary, Prysmian Group's...
