

Two-way fiber optic and six-way Ethernet gigabit switch

Overview

This 6-Port switch provides four Ethernet 10/100/1000Base-T copper ports and two 1000Base-X SFP slots for fiber-optics. It allows converting fiber-to-fiber or fiber-to-copper, or connecting a local Gigabit Ethernet copper network to a. VERSITRON manufactures a wide range of fiber optic switches that provide links for your 10Base, 100Base, 1000Base Gigabit, and 10 Gigabit networks simultaneously. Various port sizes are available ranging from 4 up to 52 ports. We offer solutions that provide seamless transmission and conversion. In this article, we'll explain how to connect multiple Ethernet switches using fiber optic cables and the equipment required for this to work. This is the next generation of modular Gigabit and Multigigabit Ethernet switches. The series provides enterprise-class Layer 2 and 3 switching, is designed for DNA Center and SD-Access management and automation, and includes an Enhanced Limited Lifetime Warranty (E-LLW). Features SFP design: two SFP (Mini-GBIC).
