

UAE 10kV Common Enclosed Busbar Manufacturer

AI Overview

Key UAE manufacturers of 10kV busbars include Transbar Middle East LLC, Delta Electric (DELTABAR®), Multiplast/Powerduct, and Karmica Global. Leading Manufacturers and Suppliers

1. Transbar Middle East LLC Based in the UAE, Transbar specializes in busbar solutions, including busbar risers and trunking systems. They provide engineering support for integrated projects, including site verification, system optimization, and component selection. Their busbar systems are designed for flexibility, low voltage drop, and efficient installation, making them suitable for medium voltage applications like 10kV distribution.
2. Delta Electric (DELTABAR®) Delta Electric, established in Sharjah, manufactures the first UAE-made low and medium voltage busway systems. Their DELTABAR® products include copper and aluminum conductors enclosed in extruded aluminum bodies with advanced cooling systems. The systems are certified according to IEC and UL standards, offering high thermal withstandability and compact, modular designs suitable for 10kV applications.
3. Multiplast / Powerduct Multiplast, in partnership with Powerduct, provides modular busbar trunking systems for commercial, industrial, and large-scale facilities. Their systems use high-conductivity copper busbars with insulated enclosures, ensuring safety, low impedance, and efficient heat dissipation. The sandwich-type construction minimizes voltage drop and allows for customizable specifications to meet 10kV distribution requirements.
4. Karmica Global Karmica Global is a Dubai-based manufacturer, supplier, and exporter of busbars in the UAE. They offer a range of busbar solutions suitable for medium voltage applications, including 10kV systems, and cater to both local and international projects.
