

What is a dual-core butterfly-shaped drop fiber optic cable

Overview

FTTH Butterfly Optic Cables, also known as flat drop fiber cables, feature a compact flat profile with optical fibers placed at the center and reinforced by parallel strength members on both sides. This article focuses on practical deployment, structural features, performance advantages, and real-world. 2 Cores 2x3mm Butterfly flat FTTH drop cable uses butterfly flat structure. 2pcs of SM G657A1 or G657A2 optical fiber units are positioned in the center. The strength member rods and. This 2 core cable with 2 steel wire as strength member, provides excellent performance of crush and tensile strength. Hone 2 core ftth fiber cable GJXH is a butterfly drop cable with 2 wire mental reinforcement and low smoke halogen. Butterfly Flat Indoor Drop Cable is widely used in fiber to the home (FTTH) network system, which can di-rectly connect the communication line from the LAN to the end users. With small diameter, water-resistant, the non-metallic.
