

What is the price of Xiangtong fiber optic cable

AI Overview

Xiangtong fiber optic cable prices in China generally range from RMB 105 per core-km for outdoor single-mode cables to \$0.10–\$1.00 per foot depending on fiber type and strand count. Estimated Pricing by Cable Type

Single-mode fiber (G.652D): Outdoor loose tube armored cables, commonly used in telecom projects, are priced around RMB 105 per core-km in recent China Telecom tenders, reflecting current market demand and procurement trends.

Multimode fiber: Typically costs \$0.30–\$1.00 per foot, depending on core diameter (50/62.5 microns) and strand count.

Single-mode fiber (indoor): OS1 tight-buffered cables for indoor applications range from \$0.10–\$0.50 per foot.

High strand-count cables: A 12-strand cable costs approximately \$0.50 per foot, while a 24-strand cable can reach \$1.00 per foot.

Armored or direct-burial cables: Designed for harsh environments, prices range from \$0.50 to \$5 per foot, depending on construction and protective features.

Factors Affecting Xiangtong Cable Prices

Fiber Type and Count: More strands increase cost proportionally.

Construction and Rating: Plenum-rated, armored, or outdoor-rated cables are more expensive than standard indoor riser-rated cables.

Core Material: Glass fiber cores are standard for high-speed, long-distance transmission and cost more than plastic alternatives.

Market Trends: Recent procurement projects in China indicate rising prices due to strong demand, especially for outdoor single-mode cables.

Practical Notes Bulk purchases or factory-direct orders may reduce per-unit costs, as suggested by manufacturer price guides. Xiangtong cables are likely priced in line with other Chinese manufacturers, so the above ranges provide a realistic reference for budgeting and procurement. For precise quotes, contacting Xiangtong distributors or authorized resellers is recommended, as prices fluctuate with strand...
