

White color scheme for network cabinets

Overview

There are several types of white network rack shelves designed for specific server configurations and equipment needs. However, choosing the right color might not be as simple as what “looks better” — it requires more understanding of the application and customer needs. The color white also reflects light, which can enhance visibility. All you need to do is choose the basic color you are interested in exploring, and get inspired. All of the color combinations and schemes are here for you, don't be scared to try different variations, experiment and play with whatever you see in front of you. Most of our users prefer to get lost in.
