

Zambian Telecommunication Tower Inspection

Overview

Zambia's Minister of Technology and Science, Felix Mutati, conducted an inspection of Airtel telecommunications infrastructure. The site visit to towers in Nyumba Yanga and Chalala aimed to assess progress in network expansion and address public concerns over service quality. Felix Mutati has disclosed that 300 communication towers will be completed by end of 2024 in an effort to increase connectivity and increase internet penetration. LTS Group offer turnkey site development.

Telecommunication is one of the most ever evolving fields on the modern day market as it remains an underlining factor in Service provision cutting across Infrastructure as a service, (IaaS), Software as a Service (SaaS) and Platform as a Service (PaaS). The telecommunications sector plays a vital role in Zambia's development, not only because it enables communication between individuals and businesses but also because it is a powerful driver of economic. We host some of the biggest operators in Zambia, providing them with reliable service through our hybrid power solutions at the sites.
