

Zhenghe Hot-Dip Galvanized Cable Tray Prices

AI Overview

Hot-dip galvanized cable trays, including Zhengning products, typically range from \$15 to \$120 per meter depending on size, thickness, and customization options.

Price Overview

Hot-dip galvanized (HDG) cable trays are widely used for their durability and corrosion resistance, especially in outdoor or industrial environments. Prices vary based on:

- Tray type: Wire mesh, trough, trapezoidal, or fully enclosed trunking
- Material thickness: Zinc coating typically ranges from 40–65 microns for HDG trays
- Dimensions: Widths from 50 mm to 1000 mm and depths from 25 mm to 200 mm affect cost
- Customization: OEM or project-specific designs can increase price

Market factors: Raw steel and zinc price fluctuations, supply chain disruptions, and regional manufacturing costs influence pricing.

Supplier Insights

Zhengning, like other Chinese manufacturers, benefits from competitive production costs and high output, as China accounts for over 45% of global HDG cable tray production. Other suppliers in Asia, such as Vietnam and India, also offer cost-effective alternatives without compromising quality. Factory-direct pricing is often available through B2B platforms like Alibaba and Made-in-China, with options for bulk orders and real-time quotes.

Practical Considerations

- Outdoor durability:** HDG trays are ideal for harsh environments, including coastal areas, chemical plants, and subway tunnels.
- Corrosion protection:** The zinc coating provides long-term resistance, extending service life compared to pre-galvanized or powder-coated alternatives.
- Customization:** Many suppliers, including Zhengning, offer tailored solutions for complex installations, including specific lengths, bends, and junctions.

For accurate pricing, it is recommended to request a factory quote from Zhengning or authorized distributors, specifying tray type, dimensions, coating thickness, and order quantity...
